At I MILANO02 :The European Credit Transfer System (ECTS) is fully implemented. Credits measure the student workload which is required to pass the examination and include class attendance, classwork, laboratory work and individual study. It is also possible to obtain credits for other training courses, project works or theses, internships, basic computing skills, training in communication and public relations and group work.

One credit corresponds to a workload of about 25 hours and the yearly workload for an average study course corresponds to about 60 credits. Each subject is assigned a number of credits which the student obtains when they pass their final examination. Exams are graded using a grading scale of 30, where 18 is the minimum passing grade and 30 cum laude the highest.
