Public Notice - Assistant Researcher

Notice no. 15130/2023 published in Diário da República, 2nd series, no. 156, 11/08/2023

Deadline: 04/09/2023

Under the terms of Dispatch No. 181/2023, of January 4, by delegation of powers, the Dean of the NOVA School of Sciences and Technology of the Universidade NOVA de Lisboa, Prof. Doctor José Júlio Alves Alferes, makes it known that it is open, for a period of 15 working days from the day immediately following the publication of this Notice in the Diário da República, international documentary competition, with internal the reference CT-PRR-19-2023-DCT, for the recruitment of 1 Assistant Researcher, under an employment contract for an uncertain term, for the maximum period of execution of the project of the Sustainable Stone by Portugal Mobilising Agenda, under the Contract — Program Financing of the Recovery and Resilience Plan (PRR), pursuant to paragraph 1 of the Dispatch 11888-B/2021, of November 30th, signed between Universidade Nova de Lisboa and the Directorate General for Higher Education, and pursuant to Decree-Law no. 57/2016, of August 29th, amended by Law No. 57/2017, of July 19th, in the scientific area of Geology, sub-area of Geodynamics, with emphasis on Structural and Petrographic Analysis.

In compliance with paragraph h) of article 9 of the Constitution of the Portuguese Republic, Universidade NOVA de Lisboa, as an employer, actively promotes a policy equal opportunities between men and women in access to employment and progression professional, scrupulously providing for the avoidance of any and all forms of discrimination.

I - Workplace:

Facilities of the NOVA School of Sciences and Technology of the Universidade NOVA de Lisboa, located on the Caparica Campus;

Department of Earth Sciences.

II - Activities and Functions:

A - Activities:

1 - Research on primary textures of sedimentary rocks generating varieties susceptible to different classifications and diversified commercial typologies, existing in quarries of the Solancis company coordinating the project in epigraph.

2 - Investigation of elements penalising the commercial quality of extracted blocks, both in situ and in blocks extracted from exploration fronts, such as fractures at different scales (regional, macro and mesoscopic), stains, textural discontinuities and others that may be detected. Information to be complemented with the images to be captured by scanner associated with cutting machines at the Solancis processing plant, located in Benedita, district of Leiria.
3 - Obtaining information at the direct scale of 1/1 observation, photographic with high definition cameras and by drone, with high definition RGB camera and multispectral images including thermal, for 3D structural and textural mapping at the quarry scale.

4 - Interaction with the "Department of Informatics” of FCT Nova, project partner, for collaboration in iterations related to the construction of Machine Learning (ML) algorithms to be developed by this team.

B - Functions

Development of activities compatible with the position of Assistant Researcher (remuneration index 53 according to the table of the "Remuneratory System of Public Administration 2023"), namely:

1 - Acquisition of structural and textural information in situ;

2 - Geological modelling for 3D prediction of commercial qualities of rocks exploited in Solancis quarries.

III - Remuneration level:

The definition of the position is based on the remuneration levels of the categories listed in Annex I of the Statute of the Scientific Research Career, approved by Decree-Law no. 124/99, of 20 April, in its current wording, and regulatory decree 11-A/2017 of 29 December, corresponding to the 1st step, index 195, which corresponds to the value of € 3 327.76.

IV - Modality and duration:

1 - The opening of this tender procedure is aimed at selecting a doctoral position to carry out scientific research activities under an employment contract for an uncertain resolutive term, being the basis for contracting the execution of a specific service, precisely defined and not lasting, the hiring being obligatorily financed any whatever its origin.

2 — An employment contract for an uncertain term has the duration of the project task, (2 years, 3 months) or for the duration of the funding, but may not exceed the maximum limit of 72 months.

V – Requirements for admission of candidates

1 - Pursuant to article 12.º Decree-Law no. 57/2016, of 29 August, the candidate must:

- Hold a Doctor's degree in the scientific area of the contest or in related areas.
- Possess a relevant scientific curriculum in the area of the competition.

VI - Application procedure

1 - The application must be instructed by filling in the respective application form, which is available at https://www.fct.unl.pt/faculdade/concursos/investigadores.

2 - The application process must be accompanied by documentation in Portuguese or English.

3 - The application must be submitted by email, containing the following documents:
a) Curriculum vitae of the candidate, which must include:

i. The identifications “Researcher ID”, “Scopus Author ID” and “Google Scholar ID”.

ii. Research and development activities and all other activities considered relevant to this tender procedure, in accordance with the terms of this notice;

b) Certificate proving the degree of Doctor in one of the disciplinary areas or similar to which respects the competition;

c) Published works, mentioned in the curriculum vitae, namely the most representative ones, with regard to their contribution to the development and evolution of the subject area in which the tender is opened;

d) Declaration, under oath, that if the jury chooses to request documentation indicated in the previous paragraphs or any other scientific documentation cited in the curriculum candidate's vitae, it will be delivered within 10 working days;

e) Other documents that candidates deem relevant for the analysis of their application.

4 - If a member of the jury is a non-Portuguese-speaking member, the documents for the candidates' prior hearing and complaints to be considered by the jury must be submitted in English.

VII - Submission of applications

1 - The documents supporting the application must be submitted by the 15th working day, counted from the day following the publication of this Notice in the Official Gazette.

2 - Candidates will submit their application documents, in PDF format, by email to the following address: div.rh.recruta.ndoc@fct.unl.pt.

VIII - Interview

1 - The Jury will deliberate at the first meeting on the need to carry out a interview all or part of the candidates.

2 - The interview has a maximum weight of 10% of the total evaluation.

3 - The interview shall aim at clarifying or explaining the elements contained in the candidates' Curriculum Vitae.

IX - Evaluation parameters

1 - This competition is intended to assess the capacity and performance of candidates in the different parameters pursuant to no. 1 of article 5 of DL no. 57/2016.

2 - Curriculum assessment of the various candidates in each of the aspects described below must take into account the scientific area in which the tender is open.

3 - The parameters to be taken into account in the curriculum assessment of candidates, in each one of the aspects, are the ones listed below referring to the last 5 years:
a) Quality of scientific work (QSW);
b) Scientific and technological production (STP);
c) Applied or practice-based research activities (ABRA);
d) Extension and dissemination of knowledge activities (EDKA);
e) Science, technology and innovation program management activities (STIPMA);

X - Reasons for exclusion
The following are reasons for exclusion from admission to the competition:

a) Incorrectly formalising the application;
b) Failure to submit the documents required in subparagraphs a) to d) of paragraph 3 of point VI, or their submission in an illegible or invalid form.

XI - Classification of candidates
1 - The jury will deliberate on the admissibility of the candidates, by justified nominal vote, expressed by the Rejected or Approved formulas.

2 - Each member of the jury presents a justified proposal of rejection or approval for each of the candidates.

3 - The candidate who manages to obtain a favorable vote of more than half of the candidate is considered approved. of the members of the jury.

XII - Ordering and voting methodology
1 - Once the candidates who have been approved on absolute merit are definitively identified, the jury ranks them on relative merit.

2 - Each member of the jury will carry out his/her curriculum evaluation exercise of the candidates by presenting a written opinion, which must subsequently be included in the minutes, in which he proposes the ranking of candidates duly substantiated in the evaluation criteria indicated in this notice, scoring each candidate against each criterion on a numeric scale from 0 to 100 points.

3 - The evaluation criteria indicated must be weighted as follows:

   Quality of scientific and technical work (QSTW): 50%
   Scientific and technological production (STP): 20%
   Applied or practice-based research activities (ABRA): 15%
   Extension and dissemination of knowledge activities (EDKA): 10%
   Science, technology and innovation program management activities (STIPMA): 5%
4 - Approved candidates shall be ordered by vote of the jury members, respecting the order presented in the opinion referred to in the previous number, under the following terms:

a) The first vote is intended to determine the candidate to be placed in first place;

b) In the voting referred to in the previous paragraph, if a candidate obtains more than half of the votes to be placed first, he is ordained in this position;

c) Should the situation referred to in the previous sub-paragraph not occur, a new vote shall be held, only among the candidates who obtained votes for first place, after withdrawing the candidate who received the least votes for that position in the previous vote;

d) If there is more than one candidate to be withdrawn, due to an equal number of votes, with a minimum of one vote each, a vote shall be held only on those candidates in order to determine the candidate to be withdrawn from the following vote; in that vote, each member shall vote, from among the candidates with equal votes, for the candidate occupying the lowest position in the ranking on his or her report;

e) In case of a tie, the tie shall be broken by the tie-breaker vote or casting vote of the President of the Jury.

f) Voting shall be repeated until it is determined, by the process previously described, which candidate shall be ranked first. If only two candidates remain and each one obtains half of the votes, the tie-breaker is made through the quality vote of the President of the Jury;

g) Once the candidate for the first place is chosen, he/she is removed from the voting and the entire process is repeated for the second place and so on until the ordered list of all the candidates is obtained.

XIII - Notifications and Hearing of Interested Parties

1 - A prior hearing shall be held, under the terms of the Administrative Procedure Code, for candidates who have been rejected, and for candidates who have been placed on the ranking list of candidates who cannot be filled for the position open for competition. All the candidates shall be notified of the homologation of the jury’s final deliberation.

2 - Notifications shall be made by email.

3 - The tender dossier may be consulted by the candidates, in the Human Resources Division of FCT NOVA, under the terms indicated in the above mentioned notification.

XIV — Composition of the Jury:

President:

Doctor José Carlos Ribeiro Kullberg, Full Professor Catedrático of Faculdade de Ciências e Tecnologia da Universidade NOVA de Lisboa;

Effective Members:
Doctor José António de Almeida, Associate Professor with Aggregation of Faculdade de Ciências e Tecnologia da Universidade NOVA de Lisboa;

Doctor Paulo do Carmo de Sá Caetano, Assistant Professor of Faculdade de Ciências e Tecnologia da Universidade NOVA de Lisboa;

**Substitute Members:**

Doctor Martim Afonso Ferreira de Sousa Chichorro, Assistant Professor of Faculdade de Ciências e Tecnologia da Universidade NOVA de Lisboa;

Doctor Joaquim António dos Reis Silva Simão, Associate Professor of Faculdade de Ciências e Tecnologia da Universidade NOVA de Lisboa.

**XV - Data Protection**

In accordance with the RGPD - General Data Protection Regulation, the data collected will be processed exclusively for the processing of the application.

The present Notice is published for the record.

The Dean, Prof. Doctor José Alferes.
